

NEUTRAL RED CLEANER

ALL PURPOSE DETERGENT

- *Cold or Hot Water Detergent
- *100% Biodegradable
- *Synergized Phosphates and Wetting Agents Added

CAUTION: Keep out of reach of children. Do not take internally

15B00 NET CONTENTS GALLON(S)

This is a mild, but very effective general purpose cleaner. Widely used on all types of flooring, and for general hard surface cleaning. This cleaner contains organic and inorganic detergents and sequestrants that work well in both hard and soft waters. In scrubbing operations with a rotary brush, the suds level is adequate but not stable, so that it is easy to remove from the floor with a wet pick-up vacuum. The cleaner may be safely used for daily maintenance of floors protected with a water-resistant wax.

DIRECTIONS:

LIGHT CLEANING: Use 2-4 ounces of detergent per gallon of water. Mop or sponge area to be cleaned. Pick up excess fluid, let the area dry, and buff for added luster.

HEAVY CLEANING: Use 4-8 ounces of detergent per gallon of water. Allow the solution to remain on the floor for 5 to 10 minutes, then remove from the floor. For exceptionally dirty floors, use a scrubbing machine or stiff brush. Rinse the surface to remove cleaner.

When using this product for cleaning food processing, packaging surfaces, or any implements used for these operations, surfaces and utensils must be rinsed with potable water before reuse.

This formulation has been authorized for use in federally inspected meat and poultry plants by the USDA.

CAUTION: Keep out of reach of children. Do not take internally. Rinse container before discarding.
