25B34 NET CONTENTS GALLON(S)

This carpet cleaning product is concentrated and low-foaming and can be used with hot or cold water extraction machines or steam cleaning units. It is formulated with wetting agents, water softeners, penetrants, detergents & defoamers. This multi-functional product is designed for cleaning of carpets, rugs, and upholstery. Due to the complexity of the formulation, this one product may be used to clean water-soluble soils such as dirt, coffee, cola, and grass stains, as well as oil-based matter such as grease, oils and lipstick. The deep, penetrating action of this product will clean carpet pile of soil and detergent residues which cause compaction under foot traffic. The defoamer in the formulation helps to prevent over-foaming in the recovery tank of the cleaning equipment.

DIRECTIONS FOR USE: On stained or heavily soiled areas, pre-spot with a solution of 1:20 with water.

EXTRACTION METHOD: Pre-dilute concentrate at 1:50 with water and add to solution tank of unit. Depending on pile thickness, one gallon of diluted product will clean 500 to 800 square feet of carpet.

SPRAY ON METHOD: Pre-dilute concentrate at 1:32 with water. Use a pump-up type sprayer and mist the entire carpet with this solution. After area has been covered with product, extract with clean water using steam, hot or cold water.

SPOTTER: Use undiluted. As with all spotters, always test in an inconspicuous area to ensure color fastness of the fiber. Wet stain lightly, and allow to penetrate. Blot the stain with a clean, absorbent cloth or tissue, constantly exposing new clean areas of the cloth or tissue. Remaining soil can be worked out by rubbing briskly, always towards the center of stain. Repeat for persistent stains. This product will not harm fibers, rubber, or plastic backing.

CAUTION: Keep put of reach of children. Do not use on wool carpets. If material comes in contact with skin or eyes, flush with large amounts of water. If ingested, drink large amounts of acid fruit juice and consult physician.
