

FOAMY LUBE

Formulated especially for the sanitary requirements of food and poultry plants. This lubricant is ideally suited for lubrication of conveyor parts, rollers, guide rails, grid belts, cams, casters, gears, sprockets, stirrups, plungers, slides, chains and cables, dicers and slicers. When these and other lubricating requirements are found in dairies, breweries, meat packing plants, restaurants, hospitals or canneries this is the proper lubricant for the job. This lubricant works extremely well when used as a wire pulling lubricant. The foam will cling to the wire and aid in pulling it through conduit.

DIRECTIONS

Shake well before using. Remove cap, and hold 8-10 inches from surface. Spray until desired area of lubrication is wet.

WARNING

Flammable. Contains propane. Use only in a well ventilated area. Do not use near heat, sparks, open flame or other sources of ignition. Do not smoke in use area. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F. KEEP OUT OF REACH OF CHILDREN.

02/94

CAS NUMBERS: Mineral Oil 8042-47-5; Propane 74-98-6; Petrolatum 8009-03-8.

(Equivalent to 14.29 Fluid Ounces)

STEEL

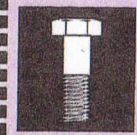

This container is made with at least 25% recycled steel and may be recycled in the few but growing number of communities where (steel) aerosol can recycling is available. Check for aerosol can recycling in your area. Use can in accordance with label directions.
