4 IN 1 reduces hazards in the workplace by eliminating the extremely flammable characteristics of most penetrating sprays. It frees rusted and corroded nuts, bolts, studs, set screws, aluminum and copper fittings. **4 IN 1** penetrates through grease, soil, and sludge. It lubricates and prevents corrosion on rusted and frozen parts. It is used in garages, factories, on farm machinery, marine and aeronautical equipment, in shops and homes.

DIRECTIONS

Hold container upright 6 to 8 inches from surface to be sprayed. Spray area to be treated liberally and allow sufficient time for complete penetration. Repeat treatment on extremely corroded parts. Tapping or heating may be required in some severe instances.

WARNING: This product contains a chemical known to the State of California to cause cancer.
