- *Acid Base Detergent
- *Removes Concrete, Mortar & Plaster
- *Dilutable With Water for Economy
- *Easy Clean-Up of Masonry Equipment

CAUTION: Keep out of reach of children. **POISON:** Vapor harmful. Contains Hydrochloric Acid

35B49 NET CONTENTS GALLON(S)

This product is a blend of acids and detergents for rapid chemical activity in the removal of concrete, mortar, and plaster from concrete trucks, mixing equipment, tools, wheel barrows, forms, floors, bricks, and tile surfaces. A perfect multi functional product for the construction industry. Days of accumulation may be removed in a single application of this product solution. Product application may be repeated for severe encrustation without fear of harm to paint, rubber, windshields or glass. Solution is also useful in the removal of rust and scale from tools, as well as the emulsification of grease and oils from concrete floors. Rinses freely with water. DeCrete Remover is formulated with oxidation inhibitors to protect metal alloys.

DIRECTIONS FOR USE:

HEAVY ACCUMULATIONS: Dilute 1 to 10 with water

MODERATE ACCUMULATIONS: Dilute 1 to 20 with water

LIGHT CLEANING OPERATIONS: Dilute 1 to 30 with water

Apply most appropriate solution concentration to surface to be cleaned. Use sprayer, brush, mop, or immersion method. Agitate surface with brush. Rinse thoroughly with water. Repeat as required.

CAUTION: POISON. Keep out of reach of children. Product contains Hydrochloric Acid. Vapor harmful. Do not ingest. If this occurs, drink large amounts of water followed by milk of magnesia or a solution of water and baking soda. Follow with water beaten with egg whites or vegetable oil. Call physician immediately. Eye contact, flush with water for 15 minutes. Get prompt medical attention. Skin contact: wash area with soap and water. Rinse empty container before discarding. Use appropriate safety equipment during application.
