35B90 NET CONTENTS GALLON(S)

Application of this penetrant and release agent will loosen frozen nuts, bolts, and fittings to prevent breakage or stripping of threads. This saves money, energy and labor. Product dissolves rust, grease, dirt and sludge accumulations while it protects metal from further corrosion and oxidation. This product penetrated deep into threads to free countersunk bolts and screws. This product is ideal for use in automotive shops, industrial facilities, factories, municipal workshops, petroleum refineries, and for use on all types of machinery.

DIRECTIONS FOR USE:

Use product undiluted. Apply to surface by spraying, brushing, immersion, or by pouring onto area to be treated. Allow a few minutes for product to penetrate. Metal is cleaned free of rust and protected. Re-apply as frequently as required.

CAUTION: Product is combustible. Do not use or store near heat or open flame. Keep container closed when not in use to prevent evaporation loss. Harmful if swallowed. Do not induce vomiting, consult physician immediately. For eye or skin contact, flush area with clear water for 15 minutes. Seek medical attention if irritation persists. Dispose of empty container in authorized landfill site.
