

# LBA 2 PORTA TOILET TREATMENT

NON-PATHOGENIC AEROBIC &  
ANAEROBIC BACTERIA

- \*Fresh Fragrance
- \*Contains No Acid
- \*Multiple Strains of Bacteria
- \*Non-Toxic
- \*Non-Corrosive
- \*Fast Acting

**CAUTION:** Keep out of reach of children. For Industrial & Institutional Use.

**48B36      NET CONTENTS      GALLON(S)**

*LBA 2* uses powerful, natural digestants to destroy and liquefy waste in toilet tanks and systems. This advanced technology eliminates the need for harsh chemicals. Billions of safe, naturally-occurring microbes consume the organic waste and eliminate the source of the odor. Malodor problems are controlled and eliminated with regular use. Scientifically formulated to be effective on complex organic substances found in portable toilet, pit toilet, Marine & RV holding tank systems. System capacity and efficiency is maximized with *LBA 2*. These efficient, facultative bacteria work well in difficult conditions that normally exist in toilet and tank systems. With the addition of the product, waste will decompose naturally and safely, making the system more efficient by continuing the natural waste digestion cycle. Upon addition of this product, odor controlling agents quickly work on the immediate bad odors while powerful, beneficial microbes begin digesting the waste. Eliminate offensive malodors with a dosage regimen of *LBA 2*. Non corrosive, safe on equipment, safe for the environment, safe to use and effective.

**DIRECTIONS FOR USE:** Shake container well

**\*Portable Toilets-** Cover bottom of retention tank with water. Add 1 quart of product. Recharge tank each time it is emptied.

**\*Marine & RV Holding Tanks-** Add 1 gallon of warm water per 40 gallons of capacity. Add 1 quart of product into toilet per 40 gallons of capacity. Repeat upon emptying system.

**\*Pit Toilets- Initial Treatment:** Add 1 quart per 500 gallons of capacity for 5 days. *Maintenance:* Add 1 quart per 500 gallons of capacity weekly. This product will liquefy waste, reduce sludge buildup and offensive odors in pit toilets.

For Use In-

Portable Toilets

Pit Toilets

Marine & RV Holding Tanks
