

ALUMINUM DE-OXIDIZER

CONCENTRATED ALUMINUM & STAINLESS
STEEL CLEANER/BRIGHTER

- *Brightens Aluminum & Stainless Steel
- *Removes Oxides, Road Film and Diesel Smoke
- *Works Quickly, Requires No Heavy Scrubbing or Polishing
- *Highly Concentrated, Economical

CAUTION: Keep out of reach of children. This product is intended for Industrial & Institutional use only. Harmful or fatal if swallowed.

70B81 NET CONTENTS GALLON(S)

A highly concentrated blend of detergents and inorganic acids formulated for the removal of oxides, scum, road film and diesel smoke deposits from aluminum.

DIRECTIONS FOR USE:

To avoid corrosion, mix solution in a plastic pail or other suitable container. Dilution rates will vary depending on the amount of oxidation to remove:

Heavy Accumulations	1:5
Medium Accumulations	1:10
Light Accumulations	1:25
Cleaning Solutions	1:40

Apply solution to surface to be cleaned with a brush or sprayer, working in small sections from the bottom upward to avoid streaking. Allow solution to remain on surface for 3 to 5 minutes, but do not allow surface to dry out during application. Agitate surface with a long handle brush to remove heavy soils, then rinse with water. Make certain that all traces of solution are thoroughly rinsed away. Avoid contact with glass or porcelain surfaces as product will etch. If contact should occur, rinse immediately with water.

CAUTION: Contains Phosphoric Acid and Fluorides which may be fatal if swallowed. Avoid contact with skin. In case of contact with the skin, flush with water and flush again with water containing sodium bicarbonate. In case of contact with eyes, flush with water for at least 15 minutes. Get medical attention. Wear rubber gloves and adequate footwear when applying or rinsing. Wash hands after using.

INTERNALLY: Drink Milk of Magnesia or egg whites beaten with water or soap and water. Call a physician immediately.
