BLUE MAX is especially recommended for spray washing items such as: trucks, trailers, buses, airplanes, automobiles, motor blocks, fiberglass filters, boats and many other difficult articles and surfaces.

BLUE MAX quickly and safely removes diesel smoke and smudge from tractor cabs and trailers. Cleans grease and grime from motor blocks. While BLUE MAX is recommended for heavy duty spray cleaning, it is safe and effective for automobile spray washing!

DIRECTIONS FOR USE: To make concentrated solution tank, mix:

2lbs to 5 gallons to water

22lbs to 55 gallons of water

40lbs to 100 gallons of water

Use 2-3 oz of concentrate to one gallon of water at the pressure nozzle. The amount of solution will vary depending upon the nature and the amount of soil to be removed. For heavy degreasing work: add 1 pound of BLUE MAX to each 5 gallon concentrated solution.

CAUTION:

Avoid contact with eyes and prolonged contact with skin. In case of eyes contact, flush freely with water. If swallowed, give water and call physician.
